DEVELOPMENTAL BRAIN RESEARCH

# Author Index

Ahmad, F.J., see Bersu, E.T. (109) 115
Aijón, J., see Porteros, A. (109) 221
Alonso, J.R., see Porteros, A. (109) 221
Arévalo, R., see Porteros, A. (109) 221
Avignone, E., Molnar, M., Berretta, N., Casamenti, F., Prosperi, C., Ruberti, F., Cattaneo, A. and Cherubini, E.
Cholinergic function in the hippocampus of juvenile rats chronically deprived of NGF (109) 137

Baas, P.W., see Bersu, E.T. (109) 115
Barone Jr., S., Haykal-Coates, N., Parran, D.K. and Tilson, H.A.
Gestational exposure to methylmercury alters the developmental pattern of *trk*-like immunoreactivity in the rat brain and results in cortical dysmorphology (109) 13
Barone Jr., S., see Haykal-Coates, N. (109) 33
Berretta, N., see Avignone, E. (109) 137
Berse, B., see Zhao, D. (109) 121
Bersu, E.T., Ahmad, F.J., Schwei, M.J. and Baas, P.W.
Cytoplasmic abnormalities in cultured cerebellar neurons from the trisomy 16 mouse (109) 115
Bloch, B., see Georges, F. (109) 187
Blusztajn, J.K., see Zhao, D. (109) 121
Briñón, J.G., see Porteros, A. (109) 221

Cai, Z., Hutchins, J.B. and Rhodes, P.G.
Intrauterine hypoxia–ischemia alters nitric oxide synthase expression and activity in fetal and neonatal rat brains (109) 265
Casamenti, F., see Avignone, E. (109) 137
Cattaneo, A., see Avignone, E. (109) 137
Cermak, J.M., see Zhao, D. (109) 121
Charron, F., see Ma, X. (109) 59
Charvet, I., Hemming, F.J., Feuerstein, C. and Saxod, R.
Mosaic distribution of chondroitin and keratan sulphate in the developing rat striatum: possible involvement of proteoglycans in the organization of the nigrostriatal system (109) 229
Cherubini, E., see Avignone, E. (109) 137
Clayton, G.H., Owens, G.C., Wolff, J.S. and Smith, R.L.
Ontogeny of cation–$Cl^-$ cotransporter expression in rat neocortex (109) 281
Clayton, G.H., Perez, G.M., Smith, R.L. and Owens, G.C.
Expression of mRNA for the elav-like neural-specific RNA binding protein, HuD, during nervous system development (109) 271
Cole, G.J., see Ma, X. (109) 59
Collado, P., Segovia, S. and Guillamón, A.
Development of sex differences in the bed nucleus of the accessory olfactory tract in the rat (109) 99
Copp, A.J., see Sheward, W.J. (109) 245
Crespo, C., see Porteros, A. (109) 221
Currás, M.C. and Dao, J.
Developmental plasticity of NR1 and NR2B subunit expression in the supraoptic nucleus of the rat hypothalamus (109) 1

Dao, J., see Currás, M.C. (109) 1
Dörner, G., see Plagemann, A. (109) 201

Evrard, P., see Redecker, C. (109) 109

Feuerstein, C., see Charvet, I. (109) 229

Georges, F., Normand, E., Bloch, B. and Le Moine, C.
Opioid receptor gene expression in the rat brain during ontogeny, with special reference to the mesostriatal system: an in situ hybridization study (109) 187
Greer, C.A., see Zaidi, A.U. (109) 157
Gressens, P., see Redecker, C. (109) 109
Guillamón, A., see Collado, P. (109) 99

Hagemann, G., see Redecker, C. (109) 109
Hagino-Yamagishi, K., Saijoh, Y., Yamazaki, Y., Yazaki, K. and Hamada, H.
Transcriptional regulatory region of *Brn-2* required for its expression in developing olfactory epithelial cells (109) 77
Hamada, H., see Hagino-Yamagishi, K. (109) 77
Harder, T., see Plagemann, A. (109) 201
Harmar, A.J., see Sheward, W.J. (109) 245
Hayashi, M., see Oishi, T. (109) 87
Haykal-Coates, N., Shafer, T.J., Mundy, W.R. and Barone Jr., S.
Effects of gestational methylmercury exposure on immunoreactivity of specific isoforms of PKC and enzyme activity during post-natal development of the rat brain (109) 33
Haykal-Coates, N., see Barone Jr., S. (109) 13
Hemming, F.J., see Charvet, I. (109) 229
Higo, N., see Oishi, T. (109) 87
Holler, T., see Zhao, D. (109) 121
Hutchins, J.B., see Cai, Z. (109) 265

Jagannathan, N.R., Tandon, N., Raghunathan, P. and Kochupillai, N.
Reversal of abnormalities of myelination by thyroxine therapy in congenital hypothyroidism: localized in vivo proton magnetic resonance spectroscopy (MRS) study (109) 179
Johnston, M.V., see Wilson, M.A. (109) 211

Kafitz, K.W., see Zaidi, A.U. (109) 157
Kinsman, S.L., see Wilson, M.A. (109) 211
Kochupillai, N., see Jagannathan, N.R. (109) 179

Le Moine, C., see Georges, F. (109) 187
Lindner, R., see Plagemann, A. (109) 201
Lutz, E.M., see Sheward, W.J. (109) 245

Ma, X., Charron, F., Cole, G.J., Savard, P.E. and Vincent, M.
The developmentally regulated avian protein IFAPa-400 is transitin (109) 59
Marret, S., see Redecker, C. (109) 109
Matsuda, K., see Oishi, T. (109) 87
Mauger, D., see Towfighi, J. (109) 169
Melchior, K., see Plagemann, A. (109) 201
Molnar, M., see Avignone, E. (109) 137
Mundy, W.R., see Haykal-Coates, N. (109) 33

Normand, E., see Georges, F. (109) 187

Oishi, T., Higo, N., Umino, Y., Matsuda, K. and Hayashi, M.
Development of GAP-43 mRNA in the macaque cerebral cortex (109) 87
Owens, G.C., see Clayton, G.H. (109) 271
Owens, G.C., see Clayton, G.H. (109) 281

Parran, D.K., see Barone Jr., S. (109) 13
Passini, M.A., Raymond, P.A. and Schechter, N.
*Vsx-2*, a gene encoding a paired-type homeodomain, is expressed in the retina, hindbrain, and spinal cord during goldfish embryogenesis (109) 129
Perez, G.M., see Clayton, G.H. (109) 271
Plagemann, A., Harder, T., Lindner, R., Melchior, K., Rake, A., Rittel, F., Rohde, W. and Dörner, G.
Alterations of hypothalamic catecholamines in the newborn offspring of gestational diabetic mother rats (109) 201
Porteros, A., Arévalo, R., Briñón, J.G., Crespo, C., Aijón, J. and Alonso, J.R.

Parvalbumin immunoreactivity during the development of the cerebellum of the rainbow trout (109) 221
Prosperi, C., see Avignone, E. (109) 137
Puil, E., see Tennigkeit, F. (109) 255

Raghunathan, P., see Jagannathan, N.R. (109) 179
Rake, A., see Plagemann, A. (109) 201
Raymond, P.A., see Passini, M.A. (109) 129
Redecker, C., Hagemann, G., Witte, O.W., Marret, S., Evrard, P. and Gressens, P.
Long-term evolution of excitotoxic cortical dysgenesis induced in the developing rat brain (109) 109
Rhodes, P.G., see Cai, Z. (109) 265
Rittel, F., see Plagemann, A. (109) 201
Robinson, S.E., see Shacka, J.J. (109) 67
Rohde, W., see Plagemann, A. (109) 201
Ruberti, F., see Avignone, E. (109) 137

Saijoh, Y., see Hagino-Yamagishi, K. (109) 77
Savard, P.E., see Ma, X. (109) 59
Saxod, R., see Charvet, I. (109) 229
Schechter, N., see Passini, M.A. (109) 129
Schwarz, D.W.F., see Tennigkeit, F. (109) 255
Schwei, M.J., see Bersu, E.T. (109) 115
Segovia, S., see Collado, P. (109) 99
Shacka, J.J. and Robinson, S.E.
Postnatal developmental regulation of neuronal nicotinic receptor subunit $\alpha 7$ and multiple $\alpha 4$ and $\beta 2$ mRNA species in the rat (109) 67
Shafer, T.J., see Haykal-Coates, N. (109) 33
Sheward, W.J., Lutz, E.M., Copp, A.J. and Harmar, A.J.
Expression of PACAP, and PACAP type 1 ($PAC_1$) receptor mRNA during development of the mouse embryo (109) 245
Smith, R.L., see Clayton, G.H. (109) 271
Smith, R.L., see Clayton, G.H. (109) 281

Tandon, N., see Jagannathan, N.R. (109) 179
Tennigkeit, F., Schwarz, D.W.F. and Puil, E.
Postnatal development of signal generation in auditory thalamic neurons (109) 255
Tilson, H.A., see Barone Jr., S. (109) 13
Towfighi, J. and Mauger, D.
Temporal evolution of neuronal changes in cerebral hypoxia– ischemia in developing rats: a quantitative light microscopic study (109) 169
Tyč, F. and Vrbová, G.
Increased activity improves recovery of partially denervated fast rat muscles (109) 149

Umino, Y., see Oishi, T. (109) 87

Van der Kooy, D., see Van Vulpen, E.H.S. (109) 51
Van Vulpen, E.H.S. and Van der Kooy, D.
Striatal cholinergic interneurons: birthdates predict compartmental localization (109) 51
Vincent, M., see Ma, X. (109) 59
Vrbová, G., see Tyč, F. (109) 149

Wilson, M.A., Kinsman, S.L. and Johnston, M.V.
Expression of NMDA receptor subunit mRNA after MK-801 treatment in neonatal rats (109) 211
Witte, O.W., see Redecker, C. (109) 109
Wolff, J.S., see Clayton, G.H. (109) 281

Yamazaki, Y., see Hagino-Yamagishi, K. (109) 77
Yazaki, K., see Hagino-Yamagishi, K. (109) 77

Zaidi, A.U., Kafitz, K.W., Greer, C.A. and Zielinski, B.S.
The expression of tenascin-C along the lamprey olfactory pathway during embryonic development and following axotomy-induced replacement of the olfactory receptor neurons (109) 157
Zhao, D., Berse, B., Holler, T., Cermak, J.M. and Blusztajn, J.K.
Developmental changes in phospholipase D activity and mRNA levels in rat brain (109) 121
Zielinski, B.S., see Zaidi, A.U. (109) 157
